If the car was sold with a valid foreign vehicle inspection certificate, is this recognised in Malta?

A national inspection is necessary for registration.

In Malta, a roadworthiness test has to take place 4 years after the car is first registered and then every two years. The cost of the inspection by an independent expert depends on the size of the vehicle.

Is it mandatory to show proof of insurance to the registration service?

Yes, you have to show confirmation of car insurance.

To whom should VAT be paid?

A car is considered new if no more than 6 months have passed since the date on which it was first registered or if its mileage does not exceed 6 000 km. For intra-EU transactions, **new cars are VAT** exempt. Thus, the supplier should not charge VAT. Instead, if you have bought a new car in another EU Member State with the intention of importing it to and registering it in your country of residence, you must pay VAT in your own Member State at that country's rate.

VAT should be paid to the [VAT Department](#).
